

Comprehensive School Safety First Step Questions Generic Set for TWG's Feedback (V.1 – 2017)

Introduction

For Safer Schools

Become part of the Worldwide Initiative for School Safety and learn about how to make schools safer from hazards and disasters. Please fill out this quick survey form to take the first step. The information will help national planning for comprehensive school safety, and you will get suggestions for next steps that you can take in your school.

Why School Safety

Children have basic rights to safety and survival and education and to education and development. Our goal is to make sure that schools are safe from known and expected dangers, and that we plan for educational continuity so that children's hope and dreams are not crushed by disasters.

A. About You

Please fill in the form below to create a School Safety account. We will not share your personal information with other people!

A.1 Email address (text)

A.2 First Name (text)

A.3 Last Name (text)

A.4 Organization (text)

A.5 Role (select one)

Education staff	Student	Parent	Other expert
-----------------	---------	--------	--------------

B. Find Your School

We are listing schools that are within 1 km range of your current location. If your school is not in the list below, you can add your school by clicking on the plus (+) sign.

B.1 School name (text)

B.1 Address (text)
