Comprehensive School Safety Indicators
Enabling policies and legal frameworks address comprehensive school safety for all hazards and risks.
Child-centered risk assessment is in place at all levels in the education sector.
Education authority provides effective leadership and coordination for comprehensive school safety.
Sustained funding is in place to reduce education sector risks, maintain educational continuity and support risk reduction and resilience programming.
Monitoring and evaluation of comprehensive school safety is based upon data and evidence.

B5 (2 questions)				Children

Comprehensive School Safety Indicators
Regulation and monitoring systems guide the safe site selection, design and construction of new schools.
Existing unsafe schools are systematically identified and upgraded or replaced (including WASH facilities).
Education authorities promote routine maintenance and non-structural mitigation for increased safety and protection of school occupants and investments.
Policies and planning limit disruption of education due to use of schools as temporary shelters or collective centers, during the school year.
Children are protected from death, injury and harm on the way to school.

Pillar 2: School Safety & Educational Continuity Management						
No.	2017	2024	Trend	Comprehensive School Safety Indicators		
C1 (7 questions)		★★☆☆		Education authorities have robust, participatory plans for risk management, risk reduction, and response preparedness.		
C2 (10 questions)	****	★★☆☆	\sim	Schools have robust participatory plans for risk management, risk reduction, and response-preparedness.		
C3 (14 questions)		★★★☆		Children's rights in the education sector are equally assured for children of all gender, disability, language or cultural groups, and at all stages of development.		
C4 (4 questions)	★★☆☆		5	Education sector has standard operating procedures and require regular drills for disasters and emergencies to improve school safety planning.		
C5 (11 questions)		★★☆☆		Education sector has robust systems and policies for school health and nutrition.

Pillar 3: Risk Reduction and Resilience Education

No.	2017	2024	Trend	Comprehensive School Safety Indicators
D1 (3 questions)	***		\sim	National Disaster Management Authority and Education Authority have nationally adopted, consensus- and evidence based, action-oriented key messages as foundation for formal and non-formal education.
D2 (4 questions)	****	★☆☆☆	\sim	Climate-aware risk reduction, resilience, and well-being education is included in regular formal curriculum.
D3 (9 questions)				Non-formal education for students and families addresses climate-aware, risk reduction, resilience and well-being.
D4 (5 question)	****	★★☆☆	5	Teachers' capacity to facilitate student learning for climate-aware risk reduction, resilience, and well-being is developed and assessed.
D5 (5 question)				Student learning outcomes for climate-aware risk reduction, resilience, and well- being education are monitored and evaluated.
D6 (5 question)				Schools have sufficient education materials for teaching risk reduction, resilience, and well being.

Comprehensive School Safety Commitments for 2025-2030

		Commitments
	Enabling policies and legal frameworks	National plan for comprehensive risk managment in the education sector
	Safer school facilities	Manual de Normas de Cosntruccion de la Secretaria de Educacion
iii	School safety and education continuity management	Self-assessment guide and security plans for the continuity of learning
(i)	Risk reduction and resilience education:	National Plan for comprehensive risk managmente in te education sector
	Reducing barriers and inequities for our most vulnerable learners:	
	Supporting health and well-being	
	Implementing climate change adaptation measures	
	Implementing climate mitigation and environmental sustainability measures ('greening schools')	
	New or enhanced budget allocations	
	Strengthening data collection and evidence-based decision processes
