Pillar 1: Policies for Safer Learning Facilities

No.	2017	2024	Trend	Comprehensive School Safety Indicators
B1 (11 questions)	****	****	→	Regulation and monitoring systems guide the safe site selection, design and construction of new schools.
B2 (9 questions)		★★★☆	~	Existing unsafe schools are systematically identified and upgraded or replaced (including WASH facilities).
B3 (4 questions)		***		Education authorities promote routine maintenance and non-structural mitigation for increased safety and protection of school occupants and investments.
B4 (5 questions)	***	***	~	Policies and planning limit disruption of education due to use of schools as temporary shelters or collective centers, during the school year.
B5 (2 questions)		***		Children are protected from death, injury and harm on the way to school.

Comprehensive School Safety Commitments for 2025-2030

	Commitments
Enabling policies and legal frameworks	Strengthening the regulations and policies in local governments and enhancing the implementation of comprehensive school safety in school level.
Safer school facilities	Strengthening the implementation of minimum standard for safer school facilities and retrofitting the school building
School safety and education continuity management	Institutional strengthening in the local secretariat of safer school and strengthening the disaster preparedness team at school.
Risk reduction and resilience education:	implement and monitor of disaster education in national curriculum.
Reducing barriers and inequities for our most vulnerable learners:	Providing appropriate accommodation for the student with disabilities and other vulnerable learners.
Supporting health and well-being	Implementing health education at school and monitoring the healthy environment at school as well as implementing the nutritious meal program at school. Implementing the violence prevention program at school.
Implementing climate change adaptation measures	Implementing the climate change education in national curriculum.
Implementing climate mitigation and environmental sustainability measures ('greening schools')	Implementing the climate change education in national curriculum and continuing the assessment of Adiwiyata school program in education.
New or enhanced budget allocations	Advocating the increase of budget allocation for CSS implementation at national and local government as well as strengthening the monitoring system.
Strengthening data collection and evidence-based decision processes	Establishing the integrated information system management for data collection and decision processes.
