Enabling Systems and Policies

No.	2017	2024	Trend	Comprehensive School Safety Indicators
A1 (5 questions)		***		Enabling policies and legal frameworks address comprehensive school safety for all hazards and risks.
A2 (11 questions)		***		Child-centered risk assessment is in place at all levels in the education sector.
A3 (4 questions)		***		Education authority provides effective leadership and coordination for comprehensive school safety.
A4 (9 questions)		***		Sustained funding is in place to reduce education sector risks, maintain educational continuity and support risk reduction and resilience programming.
A5 (10 questions)		****		Monitoring and evaluation of comprehensive school safety is based upon data and evidence.

Pillar 1: Policies for Safer Learning Facilities

No.	2017	2024	Trend	Comprehensive School Safety Indicators
B1 (11 questions)		***		Regulation and monitoring systems guide the safe site selection, design and construction of new schools.
B2 (9 questions)		★★★ ☆		Existing unsafe schools are systematically identified and upgraded or replaced (including WASH facilities).
B3 (4 questions)		***		Education authorities promote routine maintenance and non-structural mitigation for increased safety and protection of school occupants and investments.
B4 (5 questions)		****		Policies and planning limit disruption of education due to use of schools as temporary shelters or collective centers, during the school year.
B5 (2 questions)		***		Children are protected from death, injury and harm on the way to school.

No.	2017	2024	Trend	Comprehensive School Safety Indicators
C1 (7 questions)		★★★ ☆		Education authorities have robust, participatory plans for risk management, risk reduction, and response preparedness.
C2 (10 questions)		***		Schools have robust participatory plans for risk management, risk reduction, and response-preparedness.
C3 (14 questions)		★★★ ☆		Children's rights in the education sector are equally assured for children of all gender, disability, language or cultural groups, and at all stages of development.
C4 (4 questions)		★★☆☆		Education sector has standard operating procedures and require regular drills for disasters and emergencies to improve school safety planning.
C5 (11 questions)		***		Education sector has robust systems and policies for school health and nutrition.

Comprehensive School Safety Commitments for 2025-2030

	Commitments
Enabling policies and legal frameworks	In the Special Region of Yogyakarta there is already a regulation regarding SPAB No. 110 of 2021
Safer school facilities	More towards encouraging the implementation of Building Code/"Standard Laik Fungsi"LF
School safety and education continuity management	
Risk reduction and resilience education:	Implementation through the disaster-safe school program
Reducing barriers and inequities for our most vulnerable learners:	implementation through inclusive program
Supporting health and well-being	implementation of Healthy School Program
Implementing climate change adaptation measures	Implemetation through The Adiwiyata Program dan Implementation of the guidelines on climate change that were recently launched by the Ministry of Education and Culture
Implementing climate mitigation and environmental sustainability measures ('greening schools')	
New or enhanced budget allocations	
Strengthening data collection and evidence-based decision processes	Strengthening reporting mechanism by developing safe school management information system (school risk mapping, reporting the disaster impact to schools, monitoring education in emergencies and recovery)
