Pillar 1: Policies for Safer Learning Facilities

No.	2017	2024	Trend	Comprehensive School Safety Indicators
B1 (11 questions)	****	***	\	Regulation and monitoring systems guide the safe site selection, design and construction of new schools.
B2 (9 questions)	***	★★☆☆	\ <u>\</u>	Existing unsafe schools are systematically identified and upgraded or replaced (including WASH facilities).
B3 (4 questions)		★★☆☆		Education authorities promote routine maintenance and non-structural mitigation for increased safety and protection of school occupants and investments.
B4 (5 questions)	***	★★ ☆☆	~	Policies and planning limit disruption of education due to use of schools as temporary shelters or collective centers, during the school year.
B5 (2 questions)				Children are protected from death, injury and harm on the way to school.

Comprehensive School Safety Commitments for 2025-2030

	Commitments
Enabling policies and legal frameworks	We have enacted our safe school policy and we will now focus on implementation.
Safer school facilities	This is a priority for our system. We have recently established a maintenance unit, previously maintenance had to go through the Public Works Department of the Government.
School safety and education continuity management	
Risk reduction and resilience education:	This work is ongoing in partnership with CDEMA and our National Disaster Management Agencies.
Reducing barriers and inequities for our most vulnerable learners:	This is ongoing. The focus is primarily on supporting access to learners with special needs in the mainstream e.g. blind students.
Supporting health and well-being	On going delivered through our guidance and counselling programming.
Implementing climate change adaptation measures	Will be undertaken as part of a larger country initiative on Education for Sustainable Development (ESD) focused on SDG 4.7
Implementing climate mitigation and environmental sustainability measures ('greening schools')	Will be undertaken as part of ESD initiative
New or enhanced budget allocations	Request for increases in the maintenance budget are made annually will remain a priority for the system.
Strengthening data collection and evidence-based decision processes	No additional measures related to data collection are being examined at this time in the area of school safety, disaster risk reduction etc. in the school system.
