Comprehensive School Safety: Operational Guidance Resources

September 2023: GADRRRES has compiled the following **operational guidance resources** to help you implement the Comprehensive School Safety Framework and its Targets and indicators. We will be adding translations in various languages, and adding to these resources from time to time, and on the GADRRRES website: www.gadrrres.net

- [Comprehensive School Safety Framework \(CSSF\) 2022-2030 \(CSSF & Summary\)](#)
- [Comprehensive School Safety Targets & Indicators \(CSSF T&I\)](#)
- The [Operational Guidance Catalogue](#) contains the most recent and highest quality guidance available in both English as well as many other languages. It will be updated from time to time. The catalogue contains listings under the following categories:

Guidance and Tools

- Foundations: Enabling Systems & Policies
 - i. All Hazards / All Contexts
 - ii. Climate & Environment
 - iii. Conflict & Violence
- Pillar 1: Safer School Facilities
- Pillar 2: School Safety & Educational Continuity Management
- Pillar 3: Risk Reduction & Resilience Education

Resources for Cross-Cutting Themes

- i. Gender, Disability & Social Inclusion
- ii. Child Participation

Country Examples & Case Studies

Online & Other Training Resources

- [Best Practices](#) – This series of best practices provides guidance and inspiration for the implementation of comprehensive school safety in regional, sub-regional, and national contexts.
 - GADRRRES Regional Affiliates Champion School Safety
 - Sub-Regional Government Initiatives Empower Comprehensive School Safety

- **Templates** – This series of templates are designed for adaptation and adoption by national subject matter experts, for implementation in varying national contexts. These include:
 - School Emergency Drills and Exercises: Quality checklist and evaluation forms
 - School Safety Maintenance Checklists
- **Case Studies** – These case studies highlight policies and practices that have been implemented successfully, at scale, for maximum impact in achieving CSS targets and indicators.

Developed by the [Global Alliance for Disaster Risk Reduction and Resilience in the Education Sector \(GADRRRES\)](#), the CSSF 2022-2030 supports education sector policymakers, planners, school administrators, and their partners to promote child rights, sustainability, and resilience in the education sector. The framework takes an “*all-hazards*” approach, including, natural and climate change-induced hazards, technological hazards, biological and health hazards, conflict and violence, as well as everyday dangers and threats. It recognizes the need for full inclusion of children marginalized by age, gender, disability, language, and socio-cultural factors as well as location and poverty. It supports access, quality, and management strategies in the education sector. Initially developed in 2012 following two decades of school safety advocacy work, the CSSF was revised in 2022 in the context of a global pandemic, and a growing understanding of the multiple threats of climate, conflict, and displacement. The interconnectedness of these risks leads us to the imperative of an *all-hazards, all-vulnerabilities, all-risks* approach.
